

SHEKHAWATI INSTITUTE OF TECHNOLOGY, SIKAR

IT Department

GUIDELINES FOR MCA IV SEM PROJECT

Date: 20/01/2026

Note: The industrial project is part of the curriculum will be held in the institute as one of the laboratories/Incubation Center. This may be in continuations to the project under taken by the student during industrial training and/or of industrial nature and/or have good industrial significance and/or may be done in collaboration with industry (as per suitability at the institute level). The evaluation will be done in the institute by one internal examiner and one external examiner (from outside the institute) appointed by BTU.

1. For literature survey, the students must refer international / IEEE Journal and put them as reference in the project copy submitted.
2. Once the topic for Project is decided by the student, it should be approved by the supervisor.
3. On approval of the project topic by the supervisor, the applicant must submit the abstract to the Project Co-Ordinator.
5. It is to be ensured by the students that the diagrams and contents are not directly copied from the Internet/ Journal / Books.
6. Project report format should be as per the Performa and the report should be as per guidelines of B.T.U.
7. Project report must contain at least 80 Pages.
8. The main contents in the project report should be typed in Times New Roman 12 font and page no. should be numbered from Abstract as 1, 2, 3..... Spacing between consecutive lines should be 1.5. Separate successive paragraphs by 9 points. Margins of each page should be preferably 1.25 inch left side, 0.75 inch right hand side, and one inch top and 1.5 inch bottom with page no. at bottom margin of one inch. For each chapter at top right corner chapter no. should be written: for example; for chapter 1, it should be Chapter - 1 (Font 12, Times New Roman). Title of the chapter should be typed in Font 14 (All Capital) and should be centered. Literature references will be arranged in the order in which they are referred in the project. Reference no. will be put in square brackets within the text in the order in which they are cited. Preferably, the project report should be organized as under:
 - i) Contents (Pg no. should be numbered in Roman as i, ii, iii distinct to that of starting from Abstract).
 - ii) Abstract
 - iii) Introduction (Chapter - 1, Essential, Detailing Scope of work with Objectives)
 - iv) Literature survey (Chapter - 2, Essential)

- v) Chapters describing the Work (Tables should be given the number based on their chapters; for example; for chapter 2 they should be Table 2.1, 2.2 and so on. They should be written as per IEEE Syntax as under:

TABLE 1.1

NO. OF LINES, RELAYS, VARIABLES AND CONSTRAINTS
FOR SOME POWER SYSTEMS

Like Tables, Figures should be numbered, and should be titled as under”

Fig. 2.2. Diagram showing near-end and far-end faults for relay RPri_Near

8. All Students of MCA that submit their project topic individually & a group of maximum two students are allow in project.
9. The report duly bound must be got checked from the guide before the presentation.
10. After presentation and corrections, each student will make “three sets” duly corrected for the presentation in presence of guide and the Project Co-Ordinator.
11. Presentation should be in PPT form and total message should be covered in “twenty minutes” of presentation.
12. If the report is not as per the laid down procedures or it is found that the matter is copied, Project Co-Ordinator will have the power to reject the same and the students will have to rework for the presentation and report preparation.

Dissertation

The project report should contain the following:

- Original copy of the Approved Performa and Project Proposal.
- Certificate of Originality (Format given).
- Project documentation.
- A CD consisting of the executable file(s) of the complete project should be attached on the last page of the project report. In no case, it should be sent separately. The student needs to retain the identical copy of the CD that should be carried while appearing for the viva-voce along with the project report.

Project Documentation:

- Project documentation may be about 100 to 125 pages (excluding coding).
- The project documentation details should not be too generic in nature.
- Appropriate project report documentation should be done, like, how you have done the analysis, design, coding, use of testing techniques/strategies, etc., in respect of your project.
- The project report should normally be printed with single line spacing on A4 paper (one side only). All the pages, tables and figures must be numbered. Tables and figures should contain titles.
- Two copies of the original project report in the bound form along with the CD (containing the executable file(s) of the project should be enclosed in the last page) is to be prepared at the

time of final viva. One copy of the same Project Report and the CD containing the executable file(s) shall be retained by the student, which should be produced before the examiner at the time of viva-voce

MANUAL FOR PREPARATION OF MCA Project (Prescribed Format and Specification)

Essential Components of Project Report

- a. Title Page
- b. Certificate from Company
- c. Certificate from Guide
- d. Acknowledgement
- e. Index with printed Page Numbers

CHAPTER 1 : INTRODUCTION

- 1.1 Company/Educational Institute Profile
- 1.2 Existing System and Need for System
- 1.3 Scope of Work
- 1.4 Operating Environment - Hardware and Software

CHAPTER 2: PROPOSED SYSTEM

- 2.1 Proposed System
- 2.2 Objectives of System
- 2.3 User Requirements

CHAPTER 3: ANALYSIS & DESIGN

- 3.1 Entity Relationship Diagram (ERD)
- 3.2 System Architecture
- 3.3 Database Requirements & User Interfaces
- 3.4 Data Flow Diagram (DFD)
- 3.5 Data Dictionary
- 3.6 Table Design
- 3.7 Code Design
- 3.6 Menu Screens
- 3.7 Input Screens
- 3.8 Report Formats
- 3.9 Test Procedures and Implementation

CHAPTER 4: User Manual

- 4.1 User Manual
- 4.2 Operations Manual / Menu Explanation
- 4.3 Forms and Report Specifications

Drawbacks and Limitations

Proposed Enhancements

Conclusions

Bibliography

Annexure:

Annexure 1: Input Forms with data

Annexure 2: Output Reports with Data

Annexure 3: Sample Code
